4		Screws and Washers	4

Valve Module, B-Style, 8 Zone, Large Terminal, Premium Surge

Installation in Plastic Pedestal Enclosure

Front View

Final Installation of Valve Module(s):

1. Install Valve Module (1) on front of Pedestal Chassis in first available position. Use four small screws & washers (4).

2. Use proper cable to connect Valve Module. Longer cable (3) is used for Valve Module in the first position only to connect to ACPAC, thereafter, the shorter cable (2) is used between valve modules.
