| SUBJECT | SoloRain 8014 & 8014-SR Replaced by 8014e series |
| RELEASE DATE | Replacement of the 8014 series February 21, 2018 |
| GMB NUMBER | 2018.02.21 |
| PAGES | 2 |

SUMMARY

Signature continues to strive towards excellence and take the next steps in product efficiency and quality. One of our best selling products the SoloRain 8014 series, has been up-dated for even better 'in-field' performance and greater ease-of-use.

NOTE: We will no longer sell the SoloRain 8014 & 8014-SR and replace sales with the 8014e (not sensor ready)

Current SoloRain 8014 Features:

- Single zone valve mounted battery operated controller.
- 6 Programs
- Operates on one replaceable 3.6 volt lithium battery
- Waterproof design tested to IP68, 6 ft (1,8m)
- Valve adaptors are available for the majority of competitor valve types.
- Compatible with all Signature® valves.

With the new SoloRain 8014e, you get all the same features of the SoloRain 8014, PLUS:

- Improved Serviceability - Screws accessible from the top (vs. from underneath); no need to turn off the water and remove the solenoid to change batteries.
- New Water Tight Gasket - Additional protection from water incursion into the housing.
- Strong Metal Bracket – Connecting the screws with a metal bracket prevents stripping and enhances the seal with the new water tight gasket.

The SoloRain 8014e Benefits includes the following items:

- Dust Cover to Reduce Dirt, Mud and Water Exposure
- Dial Cover with Easy Access Top Screw Openings
- Sturdy Metal Bracket for Metal to Metal Screw Connection
- Water Tight Gasket to Maintain Seal
- Extended Phillips Screws for Greater Torque

Replacement of the SoloRain 8014 to the 8014e

- Effective on 2/01/2018 we will start shipping the 8014e as a replacement to the 8014 & 8014-SR model. The 8014e will not be sensor ready and 8014SR discontinued.
- All parts of the 8014e easily retrofit any 8014 for an easy replacement of parts.
