

SMART LIGHTING MODULE

Turn Your Manual Outdoor Lighting System into a Smart Yard Solution and Customize and Automate Your Outdoor Lighting and More.

Looking for an easy way to upgrade your outdoor lighting? Signature has the solution! Use the Signature Smart Lighting Module to easily upgrade your yard into a Smart Yard. Signatures Smart lighting module offers a convenient way to automate your low voltage lighting and other landscape features - all in an easy-to-install wireless system. Best of all, it installs into new or existing lighting systems.

Adding a Signature Residential Irrigation Controller* with our Signature Lighting Module and our easy-to-use app, you can control not only your lighting, but your irrigation system as well. You officially have a Smart Yard and can manage both your irrigation and lighting from one app!
